Three Tier Prescription Drug List

With our prescription drug plan, you have three options when a doctor gives you a prescription.

This is not meant to be a complete list of the drugs covered under your plan. Not all dosage forms of the drugs listed above are covered. Brand names are listed for informational reference. Under some circumstances, formulary drugs may be excluded from your plan (for example, oral contraceptives, growth hormone). We periodically review our Drug Formulary listing. This is the most current list at the time of printing and is subject to change. Some medications may require prior authorization or have quantity limits. Please consult with your Prescription Drug Plan Customer Service Representative for any questions about your coverage or for more information.

Generic (Tier One)—Includes most generic and a few selected OTC (Over The Counter) drugs.

Preferred brand (Tier Two)—Preferred brand name drugs.

Nonpreferred (Tier Three)—Nonpreferred brand name, and a few nonpreferred generic drugs. These drugs may have a lower cost alternative on Tier One or Tier Two.
